Stations at the Elementary Level :

- Station activities can be broken up over a few days for teachers who have shorter class periods. The teacher should put students into groups and then each day the groups switch to a different station. By the end every group should have participated in each station.
- This provides students with the opportunity to work together, while practicing their skills in speaking, reading, writing and listening.
- Incorporating games into stations activities (especially for younger learners) is a fun and easy way to differentiate any lesson.
